

Improved Sidewalks Equals Better Access

# Minneapolis Sidewalk Repair Hunters

Throughout Minneapolis, there are many miles of sidewalks and thousands of curb cuts. While many of them are in good shape, there are plenty that need to be made new again to enhance access and increase safety for wheelchairs, other mobility devices, strollers, and walkers alike.

Minneapolis is more than willing to fix sidewalks and curb cuts; they just need to know where the deficiencies are located. A cohesive effort can be the force behind repairing our beloved pathways.

That is why "Minneapolis Sidewalk Repair Hunters" was founded. The movement is a place to help find, report, and talk about where the city should enhance inaccessible areas. We will then relay the inadequacies to the city to start the process of fixing them.

We invite you to join us in this community-led effort!

## Here is what you can do:

- [Join our Facebook group!](#)
- When out in the community, keep an eye out for insufficient sidewalks and curb cuts.
- Jot down the address and a brief description of the problem area. Take a picture also to provide a visualization.
- Create a post within the group or email us with all the details of the sidewalk or curb cut that is in question.

## FIND ~ SNAP ~ REPORT
