

# Sidewalk Ambassadors

Founded in June 2021, Minneapolis Sidewalk Repair Hunters has been dedicated to making Minneapolis more accessible to all by asking the community to report deficient sidewalks and curb cuts. Behind the scenes, a small group has kept track of the entries, designed fliers and graphics, and talked to officials about our effort.

Moving forward, we are looking to implement a five-person board as we attempt to expand our movement. Minneapolis Sidewalk Repair Hunters are seeking fun, outgoing individuals who are motivated to help us grow.

## Position Details:

We would like members who exhibit the following skills. If you have strengths in one or more areas, please consider applying.

- Discuss and generate new ideas and initiatives, and brainstorming ways how more people can get involved
- Communicate with residents and officials on the importance of sidewalk repairs
- Write press releases and memorandums
- Some graphic design to spruce up the movement's overall look
- Organize events in the summer months
- Attend occasional virtual planning meetings

## Desired Qualifications:

- High school student or above
- Some experience at graphic design (preferred, not necessary)
- Experience in writing press releases and memorandums (preferred)
- Involvement in the disability community in some capacity (not necessary)

## Other Tidbits:

While this will be a volunteer position with very minimal hard deadlines, participation is necessary if you are selected to be a member. All major ideas or decisions must be run by Michael Sack.

## How To Be Considered:

If you are interested in being on the board, please email Michael Sack with why you would like to be a "Sidewalk Ambassador" and your qualifications. A current email is necessary to apply.
